

ST. WALBURG

Best Garden 2021

We were in awe of the creativity grown in each and every garden that we viewed. So many beautiful flowers and ‘green thumbed’ efforts that it was not an easy task selecting between them. Thank you to all the residents and who put so much effort into their yards. They really are enjoyed by your everyone! This event could not take place without our driver Emile Ermine who is so patient driving the judges around to view all the gardens. Many thanks to our judges Rosemarie Falks MP, Gabrielle Trotsuk, and Kim Gardner, Councillor. And last but certainly not least, our lunch at Route 26 was amazing as usual. The outstanding gardens this year are: Della Augustine, Barb & Dallas Glascock, Helen & George Harris, Betty Kopp, Tony & Merrill Leeson and Marie Simonot. The gardens with an honourable mention are: Yvonne Beeching, Golden & Joe Feist, Jim & Denice Krepps, Gary & Hazel Nedelec, and Justin Novak The photos throughout this newsletter will give you a glimpse of the beauty we enjoyed while viewing all nominees yards.

All this beauty right here in St. Walburg!

GARDENING TIPS FROM LOCAL EXPERTS

- Take 4 tums, 1/4 cup Epson salts & a cut up banana peel add water and put in holes before planting tomato plants.

Always plant tomato plants up to their leaves.

- When planting onions, put ashes in the rows before putting your onions. This will prevent worms.
- To get rid of ants, mix 3 tbsp. dawn dish soap, 2 tbsp. baking soda with 1 gallon water. Repeat this two days in a row.
- Plant an onion at each end of row when planting carrot seeds. It will help to mark your rows.

SMART WATERING TIPS

Getting smart with how we water isn't just about conserving it—it's also common sense. It can save time and money, and the plants will be all the better for it. The top tips are:

- ♦ Water Selectively—only water if the plants need it
- ♦ Water at the Right Time—early in the morning gives the plants time to absorb the moisture
- ♦ Aim Carefully—the base of the plants are where it's needed
- ♦ Trap Water—use upturned bottles with the caps removed to create reservoirs
- ♦ Add Organic Matter—soils rich in organic matter absorb moisture more easily

- ♦ Get Rid of Weeds—they will compete for soil moisture

With the lack of moisture in our community, the RM of Frenchman Butte No. 501 has granted permission to any resident within their boundaries to use the Community Wells. The closest well to St. Walburg is west of the Municipal Cemetery on Highway 26 South. Community wells are non-potable water intended for agriculture use.

There are two Community Wells located within the RM of Frenchman Butte No. 501:
NE 29-53-22 W3 & SW 35-53-24 W3.

Council has reduced the price of bulk water for the month of August 2021. Clean, safe potable bulk water is available from the Water Treatment Plant at a reduced cost of \$5.00 per cubic meter.

Water Security Agency has advised that due to the current conditions across the province, that under the Water Security Agency Act, all lands that touch the shoreline of the water area have the riparian right to use/withdraw water from the slough for domestic purposes until such time as the water recedes off of their property. Individuals whom do not own property touched by the waters of the slough are required to obtain a Temporary Water Rights License from the Water security Agency. The license (if granted) will require the applicant to obtain written land control (proof of permission) from all property owners surrounding the slough area. Water Security Agency applications are available at the Town Office.

TIME FOR FAMILY

Summer is family time! I think we have all been feeling confined with decreased social interaction for too long. Take advantage of long sunny days by exploring the natural world around us.

- ⇒ Check out the local beaches and parks.
- ⇒ Go bird watching.
- ⇒ Make a bird feeder or a fairy garden.
- ⇒ Pick berries.
- ⇒ Plant a garden that attracts hummingbirds and butterflies.
- ⇒ Go for ice cream or an iced coffee.
- ⇒ Enjoy camping and fishing at the many local lakes.
- ⇒ Take a walk around town to enjoy all the beautiful yards.

TRANSFER SITE

◆ Hours of Operation

Tuesday (s) 9:30 am to 12:30 p.m.

Friday (s) 9:30 am to 12:30 p.m.

Saturday (s) 4:00 pm to 8:00 pm

◆ June 1st to September 30th, garbage pickup will be Tuesday & Friday. Please have all garbage out by 7 a.m. in containers to prevent scavengers from ripping open bags.

BULK WATER

Clean, safe potable bulk water is available in St. Walburg at the Water Treatment Plant on 4th Street West at a cost of \$9.20 per cubic meter. Council has reduced the price for the month of August 2021 to \$5.00 per cubic meter. To purchase water at this self-serve, prepaid station you will need to purchase a preloaded card. Prepaid Water Cards can be purchased at Kim's Service and are preloaded with \$20 credit. You can also purchase prepaid Water Cards (loaded with any amount) at the Town Office during regular business hours that can be reloaded and used indefinitely. Bulk Water cards do require a \$10 deposit per card, that is refundable when returned.

FARMERS MARKET

The Farmers Market is back at the campground on Tuesday and Friday from 3 to 6 p.m. Stop by and check out the great baking, crafts and garden produce.

RECYCLE ETIQUETTE

- All food containers must be rinsed.
- Only recycle what is listed on sign.
- Absolutely no garbage.
- Help us to improve recycle habits!
- Recycling means less trash and saves space in landfills.

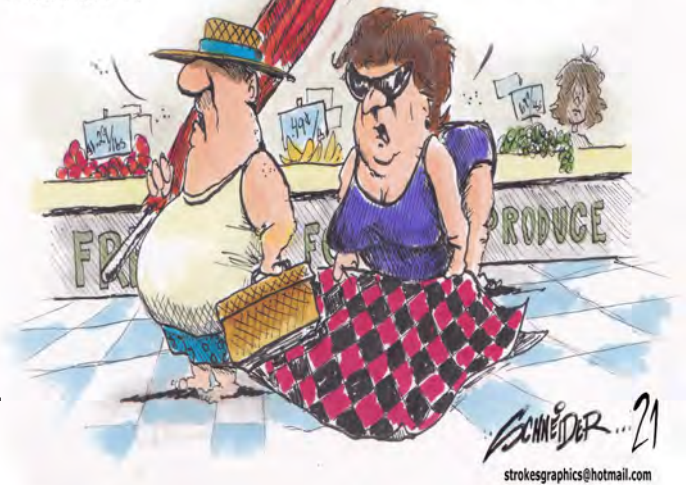

BACK TO SCHOOL SEPTEMBER 2, 2021

- Reduce your speed & use caution as students return to school.
- Never overtake other vehicles within a school zone.
- Avoid U-turns in school zones. Children can have a difficult time predicting these types of vehicle maneuvers.
- Let kids off away from traffic. Usually, that is the passenger side.
- Obey posted speed limit and don't use cell phones while driving.

... IT LOOKS MORE COMFY OVER THERE IN THE FROZEN MEAT AISLE ...

... THIS IS FINE ... IT'S STILL COOLER THAN OUTSIDE...

"You are never too old to set another goal or to dream a new dream..." C.S. Lewis
